

UNIL is a leading international teaching and research institution, with over 5,000 employees and 15,500 students split between its Dorigny campus, CHUV and Epalinges. UNIL and CHUV encourage excellence, individual recognition and responsibility.

The Faculty of Biology and Medicine ([FBM](#)) and the Lausanne University Hospital ([CHUV](#)) are inviting applications for a position of:

**Senior Lecturer (MER1)**  
**at the Institute for Higher Education and Research in Health Care – IUFRS**

Starting date: September 2024 or to be agreed

Place: Lausanne, Switzerland

Excellence in health care education and research constitutes the core mission of [IUFRS](#). In its areas of expertise – nursing and health sciences – the Institute offers state of the art education at master's and doctoral level and conducts internationally renowned research. Thereby, it aims at training and developing nursing talent at university-level that prepares its students for key roles in practice, education and research. In all its endeavors, IUFRS focuses on safety and quality of care for patients, families and relatives center stage and assumes evidence-based nursing practice and scientific rigor as foundational principles.

The successful candidate will be mainly active in IUFRS' Masters of Science (MSc) in Advanced Nursing Practice, a program that is specifically dedicated to the training and education of future nurse practitioners. A close collaboration with the vice-director of education will guarantee the alignment with strategy and operations of the school.

To carry out this mission effectively, the Institute is looking for a Senior Lecturer (MER1) with the following profile:

- Doctoral degree in Nursing Science (PhD) or in other fields of Health Sciences.
- Teaching experience and strong interest teaching on a postgraduate level, in particular in Masters of Science (MSc) in Advanced Nursing Practice programs.
- Experience in supervising or co-supervising master and doctoral thesis.
- Research program oriented towards nursing care in interdisciplinary contexts.
- Demonstrated abilities in quantitative and qualitative research.
- Promising track record in leading independent research, or participation in funded research project or research programs.
- Promising track record in peer reviewed publications.
- Marked interest for nursing science and ability to work interdisciplinary.
- Proficiency in French (level at least B2, C1 ideally)
- Proficiency in English; knowledge of German would be an asset.

**UNIL and CHUV are committed to promoting gender equality and diversity and strongly encourage applications from female candidates. [www.unil.ch/egalite](http://www.unil.ch/egalite).**

Further information may be obtained from Professor Cédric Mabire ([cedric.mabire@chuv.ch](mailto:cedric.mabire@chuv.ch)), Vice-director of education, IUFRS.

Applications, in English, should include 1) a motivation letter, 2) a curriculum vitae, 3) a list of publications highlighting the five most significant ones, 4) a brief statement of the past and future research, 5) a summary of previous teaching experience, 6) your vision of the field's development in the mid/long term, 7) names and contact information of at least three references, 8) a copy of diplomas and a valid ID card.

They should be submitted online by **June 9<sup>th</sup>, 2024 (23:59 GMT+1)** to [www.fbm.unil.ch/releve/application/](http://www.fbm.unil.ch/releve/application/) as a single PDF file. **Only applications sent through this site will be considered.** The job description is available on [the same link](#) (or QR code).

*We offer a pleasant working atmosphere in a multicultural, diverse and dynamic academic environment. There are possibilities for continuing professional education and a multitude of activities and other benefits to discover.*
